AGROHYDROLOGY - RECENT DEVELOPMENTS

Proceedings of the Symposium AGROHYDROLOGY
at the International Agricultural Centre IAC
Wageningen, The Netherlands, 29 September - 1 October 1987

Edited by

J.W. VAN HOORN

Department of Land and Water Use, Agricultural University,
Wageningen, The Netherlands

CONTENTS

Page

Preface
J.W. van Hoorn IX

THEME 1: EFFECTS OF DRAINAGE ON CROPS AND FARM MANAGEMENT

Effects of drainage on crops and farm management
R.A. Feddes 3
Effects of subsurface drainage on heavy hydromorphic soil in the Nelindvor area, Yugoslavia
N. Plamenac 19
Effect of watertable depth and waterlogging on crop yield
L. Cavazza and P. Rossi Pisa 29
Effect of watertable on yield and root depth of winter wheat in the French West Central Atlantic Marshlands
Y. Pons 35
Drainage benefits: Watertable control, workability and crop yields
A.C. Armstrong, J.G. Rands and D.A. Castle 43
The French programme of drainage reference areas. Methodology and first results
Ph. Jannot and D. Schnabele 53
Drainage and crop production system on intensive dairy farms in Western France
Ph. Jannot 61
Water table control indices for drainage of agricultural land in humid climates
L.K. Smedema 69
Agricultural criteria for subsurface drainage: a systems analysis
R.J. Oosterbaan 79

0378-3774/88/$03.50 © 1988 Elsevier Science Publishers B.V.

Page

Drainage criteria for heavy soils with a shallow impervious layer
J. Martínez Beltrán 91
Method to determine the need for drainage in flat areas
N. Bognár and L.M. Tóth 97
Water management and drainage design of a selected polder
P.J. Kowalik 103
Field drainage and land management, a comparison of four long term field trials
A.M. Clark, A.C. Armstrong, R.J. Parkinson and I. Reid 113
The hydrological response of a silty clay loam following drainage treatment
R.J. Parkinson, S.J. Twomlow and I. Reid 125
Preferential flow influences on drainage of shallow sloping soils
T.S. Steenhuis, T.L. Richard, M.B. Parlange, S.O. Aburime, L. Geohring and J.Y. Parlange 137
A simple model for flow on hillslopes
T.S. Steenhuis, J.Y. Parlange, M.B. Parlange and F. Stagnitti ... 153
Drainage problems in mountaineous areas
F. Kastanek 169
Drainage hydrology in the marshlands of western France
B. Bremond, J.M. Caupenne and Ph. Collas 175
Effect of swelling and shrinkage on the calculation of water balance and water transport in clay soils
J.J.B. Bronswijk 185
Significance of soil survey for agrohydrological studies
J.M.H. Hendrickx, L.W. Dekker, M.H. Bannink and H.C.van Ommen 195
Description of a regional groundwater flow model SIMGRO and some applications
E.P. Querner 209
Evaluation and improvement of hydrological concepts used in PAWN
G.E. Arnold and W.E. van Vuuren 219

THEME 2: WATER CONSERVATION

Water conservation
H. Bouwer 233
An empirical approach for predicting runoff yield under desert conditions
A. Karnieli, J. Ben-Asher, A. Dodi, A. Issar and G. Oron 243
Water harvesting strategies in the semiarid climate of southeastern Spain
J.V. Giráldez, J.L. Ayuso, A. Garcia, J.G. López and J. Roldán 253
Prospects of soil moisture conservation by fallowing in areas of medium agricultural potential in smallholder farming
C.M. Njihia 265
Effect of water conservation on yield of upland crops in the humid tropics
H. Verplancke, G. Maesschalck and M. de Boodt 277

Page

Readjusting the water balance to combat dryland salting in southern Australia: changing the hydrology of a texture contrast soil by deep ripping
J. Brouwer and R.H.M. van de Graaff 287
Prediction of irrigation scheduling with the numerical model SWATRE
J.G. Wesseling and B.J. van den Broek 299
The influence of subsoil on the moisture regime in irrigated fields
G.S. Ghali and Z.J. Svehlik 307
Field validation of an empirical soil water model
S.S. Nwabuzor 317
Change of characteristics of a granular aquifer in agricultural areas
L.C. Goldenberg 329
Groundwater recharge in Schleswig-Holstein
M. Zingk 339
Irrigation, groundwater abstraction and stream flow depletion
H. Madsen 345

THEME 3: HYDROLOGY OF NATURE RESERVES

Hydrology of natural wetlands and wet nature reserves
W.H. van der Molen 357
The importance of hydrological research in designing rural water management systems as part of land development projects in the Netherlands
H. Prak 365
Operational aspects of surface water management in relation to the hydrology of agricultural areas and nature reserves
P.J.T. van Bakel 377
Hydrological research and the design of a water management system for a peatland area with agriculture and nature in the land consolidation project Echtener and Groote Veenpolder
J.M.L. Jansen 389
Hydrochemistry of rich fen and water management
R.H. Kemmers and P.C. Jansen 399
Modelling forest water consumption in the Netherlands
A.J. Dolman and S. Nonhebel 413
The influence of water level management and groundwater quality on vegetation development in a small nature reserve in the southern Gelderse Vallei (The Netherlands)
D. van der Hoek and S. van der Schaaf 423
The impact of water management upon groundwater fluctuations in a disturbed bog relict
J.M. Schouwenaars 439
The integration of wetlands into man-made landscapes of N.W. Germany
J. Blankenburg and H. Kuntze 451
Hydrology of the wetland Naardermeer: influence of the surrounding area and impact on vegetation
P.P. Schot, A. Barendregt and M.J. Wassen 459
Restoration of the Vecht Lakes ecosystems surrounding the Horstermeer Polder: a feasibility study
P.H. Schouten, P.J.T. Verstraelen and J.J. Buntsma 471

Page

THEME 4: REUSE AND DISPOSAL OF DRAINAGE WATERS FROM IRRIGATED AREAS

Reuse and disposal of higher salinity subsurface drainage water - A review
D.W. Westcot 483
The Tongola groundwater pumping/reuse project: a pilot study for groundwater table control in the Shepparton region in northern Victoria
A.F. Heuperman 513
Forecasting the suitability of pumped groundwater for irrigation in the Nile Valley
A.B.N. Lennaerts, F.A.R. Attia, S.J. de Jong 525
Watertable control, reuse and disposal of drainage water in Haryana
J.H. Boumans, J.W. van Hoorn, G.P. Kruseman and B.S. Tanwar 537
